Our syringes are precision molded in polypropylene, providing a safe, reliable method of dispensing all types of liquids and pastes.

They are temperature and chemical resistant and ideal for all types of packaging, including frozen and pre-mix applications.

Available in 3, 5, 10, 30, and 50 CC sizes.

RBC Disposable Stainless Steel Needles fit all types of luer slip and luer lock syringes.

Hub color corresponds to gauge size for easy identification.

Be sure to refer to gauge size when ordering.
